NOVELTIES FOR 1927

A FEW TESTIMONIALS

"Ellisboro, Sask., July 8th, 1925.

Dear Madam:

I have had famous success with your seeds and nursery stock. Spoke of your seeds at our Lecturing Club. Your service is excellent and the most prompt of any house I have ever dealt with.

Wishing you every success,

Mrs. T. Willers."

We always have wonderful flowers from your seeds.

Yours sincerely,

Mrs. D. E. Johnson,
708 Wilson St., Bay City, Mich.

Have been buying your seeds for 15 years and they are always satisfactory.

Mrs. Jennie Clements,
Monroe, Maine.

1. NEW GIANT DAHLIA FLOWERED ZINNIA (awarded Gold Medal 1924 by Royal Horticultural Society of England). See also page 11.

We take great pleasure in offering this beautiful new type of the old garden favorite again. The very robust plants, growing from 3 to 4 feet high, produce an abundance of 4 to 5-inch flowers resembling Dahlias of the decorative type. They are borne on strong stalks clear of the foliage, making them very desirable for garden decoration as well as for cut flowers. We offer them in the following varieties:

BUTTERCUP—A rare shade of deep creamy yellow.

DREAM—A fine deep lavender turning to purple, a new fine color.

EXQUISITE—By far the most pleasing color in our collection. A lovely Tyrian rose color.

ORIOLE—Mammoth blooms of deep orange and gold bicolor.

METEOR—A rich, glowing red. The darkest of all the red shades.

POLAR BEAR—The best white yet seen in Zinnias.

MIXED. The above and other varieties mixed.

Per pkt., 20c; one pkt. each of six varieties for \$1.00.

NOVELTIES FOR 1927— Continued

2. DIANTHUS ALLWOODII.

This is the highest development yet brought out in Dianthus. It is a hybrid between the garden pink and the greenhouse carnation. Very hardy and extremely floriferous. Mixture embraces all colors known. You must try this marvelous novelty. Per pkt., 25c.

3. NEW GIANT SNAPDRAGON (Tall Named Varieties), Antirrhinum Maximum.

This wonderful new group of Snapdragons far surpasses anything yet introduced. The plants are very robust, forming spikes of beauty from 3 to 4½ feet tall. The flowers themselves are placed closely on the stems. All of loveliest and softest shades are found in the flowers. They are as easily grown from seed as any other Snapdragon. They must be staked for success. For cutting, these Snapdragons are unsurpassed.

APPLE BLOSSOM—Rosy pink, golden yellow lip.

BUNCH OF LILAC—Lilacy purple.

GOLDEN QUEEN—Deep yellow.

PURPLE KING—Deep glowing purple.

SNOWFLAKE—Pure white, yellow tube.

WALLFLOWER—Brownish orange, copper red.

MIXED—All colors.

Per pkt., 15c; one pkt. each of six varieties for 75c.

4. DOUBLE BACHELOR BUTTONS (Centaurea Cyanus).

The Bachelor Button is one of the most popular annual summer flowers. It is easily grown from seed and it usually reseeds itself year after year. You must try these variety.

DOUBLE MINIATA—brick red; **DOUBLE ALBA**—white; **DOUBLE ATROPURPUREA**—purple; **DOUBLE MAUVE**; **DOUBLE BLUE**; **DOUBLE ROSE**.

Per pkt., 10c; one pkt. each of six varieties, 49c.

5. PERENNIAL SCABIOSA CAUCASICA PERFECTA.

This is a very handsome perennial forming dense, spreading plants 2 or 3 feet tall. The flowers are 3 to 4 inches across of a beautiful lilac-blue shading to a deep blue and are borne on stalks 1½ to 2 feet long. Grows in any good garden soil and produces flowers from early summer to frost. Per pkt., 15c; 2 for 25c.

6. GIANT IMPROVED RANUNCULUS.

A truly wonderful new type. It is very strong and vigorous in habit with stems of blooms 18 inches to 2 feet in height, each flower very large, generally 3 to 4 inches in diameter, while the giant Florentine strain has flowers 4 to 5 inches in diameter. The very double flowers have most varied colors—white, shades of yellow, deep mauve, many shades of pink, rose, and crimson, with bronzy shades, some blotched and many picotee edged. Sow thinly in pans in good turfy loam in early spring. Seedlings will generally bloom the first year, but will be at their best the second year, grown out of doors from roots formed the first year. Our mixture includes seeds of the expensive Florentine strain. Per pkt., 25c.

SPECIALTIES FOR 1927— Continued

CELOSIA (COCKSCOMB)

Pkt., 5c

CHINESE WOOL FLOWER. A new and unique Feathered Cockscomb. It grows 2 to 3 feet high, each branch covered with a great head of rich crimson flowers having the appearance of soft, silky wool. Very effective in beds and borders, splendid for cutting as it lasts many days, and dried it is a valuable addition to the winter bouquet. It blooms continuously until cut off by frosts. A much longer blooming period is obtained by starting seed indoors. Do not sow outside until settled warm weather. Pkt., 40 seeds; 1-16 oz., 25c.

LOBELIA

Much used for edgings; effective also for the hanging basket, rockery or porch box. The standard blue variety for edgings and vases. Pkt., 600 seeds, 8c; 1-16 oz., 20c.

CRYSTAL PALACE. A dwarf compact growing plant about six inches high. Purplish foliage with flowers of a deep violet blue. Fine for edgings.

DIIDISCUS

QUEEN ANNE'S BLUE LACE FLOWER. This dainty and pretty flower has in the past couple of years become very popular and is found in the florists' shops everywhere, but even so it is easily grown and every one can have some. It somewhat resembles the Scabiosa, but is of a very peculiar shade of blue, a shade that is quite the thing these days. It is an annual and blooms profusely from July to November or a heavy frost cuts it down. Its exquisite, lacy-like flowers make it wonderful for cutting. The plants grow to a height of about eighteen inches and are literally covered with flowers most of the time. Pkt., 10c; ¼ oz., 50c; oz., \$1.60.

MARIGOLDS

Pkt., 5c

TALL DOUBLE AFRICAN — ORANGE BALL. Large, perfect double-quilled flowers of a rich deep golden orange color; the finest of all and very showy. ¼ oz., 40c.

SCHIZANTHUS (Butterfly Flower)

It is a quick germinating annual and is soon in bloom after planting. Its flowers are airy and of the lighter shades of pinks, yellows and lavenders. It is good for border work, and in front of tall flowers. Make good pot plants from seed if sown in the fall. Pkt., 10c; ¼ oz., 15c.

VERBENA Mammoth

LUCIFER. We can recommend this as one of the most brilliant scarlet Verbenas we have ever seen and the display of the variety in the Minneapolis parks the past summer was wonderful. It is an improvement over the Defiance, which in itself is an excellent variety, and it has no eye, thus making it a brilliant splotch of red. Pkt., 10c; ¼ oz., 75c; oz., \$2.75.

TRITOMA Red Hot Poker Plant

The **FLAMEFLOWER.** Fine for bedding or for the conservatory. A plant with gorgeous scarlet spikes, rivaling the Canna in brilliancy and the Gladiolus as a cut flower. They bloom from June until November, and are hardy, with protection, in most sections. New mixed hybrids. Pkt., 40 seeds, 8c; 1-16 oz., 25c.

PETUNIA

GIANTS OF CALIFORNIA, DOUBLE MIXED. Mrs. Wadsworth, a New York Customer, says: "The Double Petunias were the handsomest I ever saw. I had 15 varieties and took first prize at our fair." Our mixture contains the very best strains of two expert growers who have devoted years to their development. Not all come double, but the seed will give a good percentage of deeply fringed double flowers in the brightest colors and most beautiful tints. Pkt., 75 seeds, 25c; 500 seeds, \$1.00.

GIANTS OF CALIFORNIA, SINGLE MIXED. This mixture will give as handsome Petunias as any on the market. Some will measure four or five inches across, the corollas being ruffled, fluted, or fringed, with extremely deep and large open throats. They appear in many shades and combinations, striped, blotched or solid in color. Splendid mixed. Pkt., 100 seeds, 20c; 500 seeds, 50c.

BALCONY QUEEN. Large flowering or Grandiflora, rich dark velvety purple, one of the best plants for window boxes or group planting. Use white flowers with the Balcony Queen for best effect in window box. Pkt., 25c; 500 seeds, 90c.

"FLUFFY RUFFLES." A superb strain of single Petunias, the most deeply ruffled and fluted of all. Exceedingly delicate and graceful. Mixed. Pkt., 100 seeds, 20c; 500 seeds, 65c. See also page 22.

Emma V. White Co's.

NEW SUPERB MAMMOTH BLOTCHED GIANT PANSIES

By far the most beautiful, most striking Pansy we have ever offered. The plants are of very robust growth with exceptionally vigorous foliage. Produces five-spotted flowers of enormous size on long, graceful stalks. Individual petals are exceedingly broad and cover each other in a manner which makes the flowers appear double. The border of nearly every petal is undulated and curled, making an appearance entirely new to the pansy family.

Most noticeable of all in this wonderful strain is the brilliancy and richness of color. Mixture contains many different colors including some entirely new shades of red and brown. Our quantity of seed is limited, so would advise early selection. Order some of these seeds this year and your Pansy Garden will be the talk of the town.

Trial pkt., 25c; large trade pkt., 40c; $\frac{1}{4}$ oz., \$2.00.

Your Pansy seed is the best I have been able to secure at any price.

Yours sincerely,

Gertrude Ferguson,
25 Elm St., Glens Falls, N. Y.

I cannot help adding a word of appreciation regarding our success with Mammoth Blotched Pansies. Our pansy bed was a revelation and our pansy bouquet at the local fair was 100% ahead of all other entries.

Frank Ivers,
Bounty, Sask.

GIANT NAMED PANSIES

GIANT NAMED PANSIES

Pkt., 100 seeds, 10c; 3 pkts., 25c

Giant Blue. A splendid dark blue of immense size, the very best in blue.

Giant Black. New, nearly all jet black, very rare.

Giant Bronze. The popular art shades ranging from burnished brass to old gold.

Giant Masterpiece, or **Giant Frilled,** giving the flower a unique, double effect. All colors mixed.

Giant Red, or **Madam Perrett.** Dark wine, pink and red, beautifully veined and frilled.

Giant White. The finest and largest all-white pansy grown.

Giant Yellow. Huge, deep yellow, some with dark centers, some all yellow. Very showy.

Giant Lord Beaconsfield. Deep purple violet shaded to white.

FINEST MIXED PANSIES. A splendid mixture, including all the best bedding varieties, together with numberless other shades and combinations, a rare mixture. Pkt., 100 seeds, 5c; trade pkt. (1,000 seeds), for 30c; $\frac{1}{4}$ oz., \$1.00.

DANISH BEAUTIES. Remarkably beautiful new strain of Pansies in mixture, composed of rich self-colors and large flowers with curled petals. A bed of this class creates a peculiarly bright and light appearance. Pkt., 100 seeds, 10c; trade pkt., 50c; $\frac{1}{4}$ oz., \$1.60.

COLLECTION, No. 113. One packet each of Giant Exhibit, Mammoth Blotched and Danish Beauty Pansies, 38c.

EXHIBITION PANSIES

See page 10

Giant Pansy

SWEET SCENTED PANSIES. *Viola Cornuta* or *Tufted Pansy*. The latest fad in parks and gardens. They are a cross between the pansy and the violet, and have the delightful perfume of the latter with blossoms more like the pansy only much smaller. Plant them in masses and they will cover the beds with sheets of bloom throughout the season. Mixed. Pkt., 100 seeds, 6c; $\frac{1}{4}$ oz., 45c.

CLIMBING VINES AND FLOWERS

ALLEGHENY VINE OR MOUNTAIN FRINGE

ADLUMIA CIRRHOSA. A beautiful hardy climber, very desirable for covering trellises, stumps of trees, fences, etc. While an annual it reseeds itself from year to year and might well be considered a perennial. Beautiful soft foliage quite similar to Maiden-hair Fern. Pretty flesh-colored and pink flowers resembling the Bleeding Heart. These should grow and blossom the first year from seed. Pkt., 15c.

CYPRESS VINE

A beautiful climber with delicate feathery dark green foliage, bearing bright velvety star-shaped flowers in scarlet and white. Very desirable for small ornamental trellises or wire supports, and may be grown in window boxes. Mixed. 30 seeds, 8c.

CANARY BIRD FLOWER

A very excellent climber for the porch or trellis; the growth is very rapid and the foliage very pretty. Bears curiously shaped canary yellow flowers with similar likeness to a bird with outstretched wings. We recommend this as one of the most desirable vines that can be grown from seed. Annual Pkt., 20 seeds, 8c; $\frac{1}{4}$ oz., 30c.

THUMBERGIA—BLACK EYED SUSANS

This fine, slender growing climber from Africa is exceptionally useful for covering wire trellises and also for vases in the garden or house. They are very attractive if grown as a trailer on the ground. The colors are white, yellow and orange, and of each color there is a variety with white eyes and also black eyes—the latter being called "Black-eyed Susans." Blooms continuously from the first approach of summer until frost. Sow seeds indoors in March and outdoors in May. Pkt., 10c; $\frac{1}{4}$ oz., 50c.

CARDINAL CLIMBER

We feel that everyone who has a flower garden should have this favorite climber. The vine quickly reaches a height of 30 feet or more. The blossoms are about $1\frac{1}{2}$ inches in diameter, in clusters of five to seven blooms each, and as the name indicates are of a rich cardinal red. It likes sun and good soil, and develops to perfection in a sandy loam soil. If started in the open do not sow until warm weather, as the seed will rot in cold, wet ground. File each seed, or slightly cut through the outer covering, soak in lukewarm water over night and sow in a warm place. Pkt., 10 seeds, 12c; $\frac{1}{4}$ oz., 50c.

JAPANESE KUDZU VINE (Pueraria Thumbergiana)

This remarkable vine, often called "Jack-in-the-Beanstalk," will grow anywhere in the best or poorest soil. The growth is very rapid and it oftentimes reaches a height of 75 feet in one season. Fragrant purple flowers resembling a purple Wistaria; invaluable for covering porches, etc. Pkt., 15c; $\frac{1}{4}$ oz., 45c; $\frac{1}{2}$ oz., 60c.

MAURANDIA VINE

Graceful, delicate annual from Mexico. Fine for baskets and vases in sheltered positions, both the flowers and foliage being very beautiful. Our mixture consists of blue, white and mauve. Start indoors during March and set out when the weather is quite warm. Thrives in a rich, sandy soil. Pkt., 15c.

WILD CUCUMBER VINE

Makes the most massive covering. It is an old friend with people in the country, and it is undoubtedly the best climber for covering verandas, trellises, etc., never suffering from the heat, but retaining its fresh and lively green color throughout the whole summer, whether hot or cold, wet or dry, never infested with insects, and very profuse in bloom. It will sow itself and come up every year in the same place. Pkt., 5c; $\frac{1}{2}$ oz., 20c.

Cardinal Climber

BALSAM APPLE**(Momordica Balsamina)**

Attractive rich cream flowers followed by small fruits about the size of a lemon. When the fruits are ripe they turn to a bright golden yellow color. The pulp of the fruit is blood red and contains large black seeds. Excellent for low fences. Pkt., 10c; ¼ oz., 30c.

NASTURTIUM

TOM THUMB, "EMPRESS OF INDIA." A very select strain of this popular dwarf dark scarlet variety, with extra dark leaves. Pkt., 10c; oz., 25c.

JAPANESE HOP

For rapid growing nothing is better than the Japanese Hop. The foliage is luxuriant, leaves being smaller and more delicate than those of the common hop, and are curiously marked with silver and yellowish white streaks. Pkt., 8c; 1-16 oz., 20c.

GIANT PINK MOONFLOWER. Of marvelous growth, the plants beginning to bloom nearly as soon as the Morning Glory. They remain open from four o'clock in the afternoon until about noon the next day, and cover the vines all summer and fall. Pkt., 8 seeds, 8c; ¼ oz., 20c.

Dear Madam:

The Asters I got from you last year were wonderful. My friends would often say, 'I did not know Asters grew so large.' The beautiful shades blended so wonderfully and were indescribably beautiful when bunched separately.

Thanking you again and again for your kindness, I am,

Sincerely, Mrs. H. B. Henin, 31 S. Thornton Ave., Dalton, Ga."

"Dalton, Georgia, May 15th, 1925.

Asters on Page 12**SCARLET RUNNER**

Highly ornamental as well as useful, both in foliage and flower and as pretty a climber as many of its more aristocratic neighbors, and the beans are good for the table if one wishes. Pkt., 12 seeds, 5c; oz., 10c.

MIMULUS (Monkey Flower)

Showy, profuse, flowering plants, with Gloxinia-like blossoms, fine for winter garden, or for moist, shady positions. A mixture of 'Tigrinus', or true Monkey Flower, and Musk Plant, noted for its fragrant foliage. Pkt., 500 seeds, 5c; ¼ oz., 24c.

Your seeds have always given good satisfaction, and I have not planted any others for a number of years.

M. A. Hetze,
Menomonie, Wis.

I have always had every reason to be proud of the flowers grown from your seeds, and we are enjoying a most wonderful vegetable garden this summer grown from your seeds.

Miss Frances S. McCulloch,
Auburn, N. Y.

NEW RED SUNFLOWERS

A really unique Sunflower. Plants are from 5 to 8 feet high and much branched, with flower heads varying greatly in size and color. Some produce rich chestnut-red blooms, some full rose, some red, tipped yellow, and others will be zoned with red, all very striking, though, as in most novelties, not every seed will come true. Pkt., 10c. †

NEW RAINBOW SUNFLOWER. Obtained by blending three distinct types. The colors run through all shades of yellow in many combinations with brilliant reds and bronzes. A row will make a gorgeous sight in your garden. Pkt., 15 seeds, 8c.

MIGNONETTE

MACHET WHITE PEARL. The nearest to a real white that can be produced in a mignonette. Pkt., 10c; ¼ oz., 25c.

**REGAL OR ROYAL LILY
(Lillium Regal or Myriophyllum)**

Regal Lily, being a native of Northwestern China, is hardy. "One of the most beautiful of all known lilies, the exquisite blending of tints and colors forming a charming contrast with the rich, deep-green foliage. Highly recommended for general culture, both for the open ground and for pots.

The outside of the flower is white, very

faintly tinged with yellow at the base of trumpet and with pink at the point. The midribs are purple. Inside shows a bright canary-yellow deep in the throat, shading to pure white with just a hint of pink showing through from the outside. Mature bulbs produce plants 3 to 4 feet high, bearing 1 to 7 flowers.

NEW CHINESE REGAL LILY. Each, 75c; 2 for \$1.25; 6 for \$3.50; 12 for \$7.00.

CINNAMON VINE BULBS

Beautiful leaves, dainty flowers, exquisite perfume, grows in shade or sun, wet or dry. No insects ever trouble.

A charming climber that will quickly surround your arbor, window or veranda with a wonderful profusion of vines covered with handsome, glossy, heart-shaped leaves, while its clusters of delicate white flowers emit a delicious fragrance. Very hardy, thriving almost everywhere, though perhaps not so well adapted to the extreme north. The first year the vines run about 10 feet, but eventually reach a height of about 25 to 40 feet. See my "Culture of Flowers" for directions. Two or three roots, one foot apart, on each side of a door or window will quickly cover it. They do best in a warm, sunny location, though thriving almost anywhere.

Extra Quality—Sure to grow. Price 1 strong root, 10c; 3 roots, 25c; 12 roots, 90c; all postpaid.

MIXTURE OF ANNUAL FLOWER SEEDS FOR CUT FLOWERS

Due to the frequent requests from our customers asking for the best varieties of flower seeds for cutting we have compiled a special "Cut Flower Mixture" of the best annuals for cut flower purposes. This mixture will produce a glorious amount of flowers for cutting. By careful cultivation of the plants and by keeping the flowers cut close and not allowing seed pods to form you will be able to cut many hundreds of blossoms from this mixture.

CUT FLOWER MIXTURES. Pkt., 15c; ½ oz., 30c; 1 oz., 50c; ¼ lb., \$1.50.

CUT FLOWER COLLECTIONS. For florists and those who wish to grow cut flowers for commercial purposes we strongly recommend this collection. One pkt. each of Asters, Candytuft, Calliopsis, Centaurea, Chrysanthemum, Clarkia, Cosmos, California Poppy, Gaillardia, Larkspur, Marigold, Mignonette, Nasturtium, Scabiosa, Snapdragon, Stocks, Sweet Peas, and Zinnias.

We recommend these varieties particularly

because of the length of stem and good keeping qualities. We will send postpaid to any address one each of the 13 varieties listed above for \$1.00. If purchased separately would cost you \$1.50.

This is a great improvement on any yellow of the giant class, being of a rich buttercup shade of yellow, and holds its color until the flowers commence to fade, when it changes to a deep cream color. **Pkt., 15c; $\frac{1}{2}$ oz., 30c.**

Mexican Zinnia

Very artistic for cutting and highly effective as an edging plant. 1 foot. **Pkt., 50 seeds, 5c; $\frac{1}{8}$ oz., 25c.**

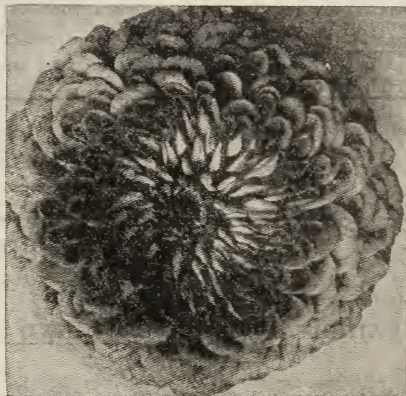

Liliput Zinnia

Finest mixed double. 12 inches. The plants form handsome little bushes; flowers very double, about the size of an English Daisy.

Bloom all summer until killed by frost. **Pkt., 5c; $\frac{1}{8}$ oz., 18c.**

Giant Picotee Zinnia

A remarkable new and distinct class with beautiful double flowers in shades of orange, flesh, lemon, pink and cerise, each petal being distinctly tipped with various shades of dark, resembling the Picotee Carnations—most attractive and pleasing. All colors mixed. **Pkt., 15 seeds, 10c.**

**Giant Zinnia****SOME CHOICE ZINNIAS****Giant Victory Quilled Zinnia**

The petals are quilled and twisted with a pin wheel effect in the center. The outside of the petals is of a copper-golden color and the under side shades of rose and lilac. **Pkt., 15c.**

Red Riding Hood Zinnia

A little gem, covered throughout the season with small, intensely scarlet, very double flowers; highly effective for bedding. 1 foot. **Pkt., 50 seeds, 5c; $\frac{1}{8}$ oz., 20c.**

Curled and Crested

The flowers are large, the petals being twisted and curved into most graceful forms. Mixture of all colors characteristic of the Zinnia. **Pkt., 5c; $\frac{1}{8}$ oz., 20c.**

Golden Pheasant

A variety of large Zinnias having flowers of a deep orange with maroon tips. **Pkt., 15c; $\frac{1}{8}$ oz., 50c.**

For other Zinnias see page 2.

For other Zinnias see page 2.

ASTERS

We specialize in the better varieties of Asters and we have built up a reputation for our Aster seeds that is the envy of seedsmen and florists. There are few if any flowers that make a better show than this popular garden annual. You should make several sowings of the early, mid-season and later varieties so as to have continuity of bloom. Ask for our "Culture of Flowers" when you order.

Emma V. White Co's.

DOUBLE CHRYSANTHEMUM FLOWERED ASTER

Without question, this is one of the finest and grandest Asters ever produced. The flowers of this beautiful variety, which may be cut with stalks from 1½ to 2 feet in length, measure up to 8 inches across, being densely double, and greatly resembling a large-flowering chrysanthemum. It is unequalled as a cut flower and wholly effective for tall beds and groups. Seed is grown for us on contract in Germany by one of the foremost growers of that country.

Colors: Deep Lilac, Crimson, Rose, Peach Blossom, Rose and White, Mixed. Each, per pkt., 25c; 2 for 40c.

Have used your Aster seed for 20 years.

Yours very truly,

Mrs. H. B. Miner,
Mora, Ill.

EXHIBITION ASTERS

These are the finest strains which we have been able to grow in California. Immense blooms—good for cutting—good keeper.

EXHIBITION DARK BLUE AND PURPLE ASTERS

A mixture including these shades in the Comet, Crego, Invincible, Queen of the Market and Semple's and Royal and Upright classes. 7 sorts. Pkt., 10c.

EXHIBITION DEEP PINK AND ROSE ASTERS

A mixture of these shades in the following classes: Comet, Crego, Crimson Giant, Invincible, King, Royal, Upright and Semple's; also Lady Roosevelt; 9 sorts. Pkt., 10c.

EXHIBITION LAVENDER ASTERS

A mixture including lavender shades in the Comet, Crego, Invincible, Queen of the Market, Royal and Semple's classes; also Vick's Lavender Gem; 7 sorts. Pkt., 10c.

EXHIBITION LIGHT PINK ASTERS

A mixture of light pink, including all the light pink shades listed under Comet, Crego, Daybreak, Invincible, Peerless Pink, Rochester, Queen of the Market, Upright and Semple's classes; 9 sorts. Pkt., 10c.

EXHIBITION WHITE ASTERS

A mixture including Comet, Crego, Invincible, Rochester, Purity, Queen of the Market, Upright and Semple's; 8 sorts. Pkt., 10c.

EXHIBITION MIXED

This is a special mixture which we make ourselves, including large-flowering varieties only, in an attractive range of colors, especially designed for those who are growing for exhibition or commercial purposes, and we do not hesitate to class it with the best on the market. Pkt., 75 seeds, 5c; ¼ oz., 40c; ½ oz. of any variety Exhibition Asters, 40c.

ASTER

EVERLASTING FLESH. This curious aster was found in our fields a few years ago and it has retained its peculiar characteristics during the three years we have grown it in our trial grounds. It resembles a large Helichrysum; when cut and dried it retains its color and shape as an everlasting flower. Pkt., 15c; ¼ oz., 65c; oz., \$4.00.

CALIFORNIA GIANTS. This wonderful aster is a hybrid species of the strength of the Beauty asters combined with the flower of the wonderful Crego asters. The flowers are larger and more substantial than the Improved Crego, are good shippers and reach a size up to six inches in diameter. They are very long stemmed and with their great size make them one of the most wonderful asters produced in recent years. Colors: Peach blossom, blue, rose, purple and mix. Pkt., 20c; 1-16 oz., 75c; ¼ oz., \$2.25; oz., \$8.00.

ASTERS

**Enchantress**

ENCHANTRESS ASTERS. A splendid Aster. The plants are upright in habit, bearing immensely large flowers on long, strong stems. The color is soft pink, like that of the popular Pink Enchantress Carnation. The blooming period is an advantage, too, as they come between the mid-season and the late-blooming sorts. Pkt., 75 seeds, 8c; $\frac{1}{4}$ oz., 60c.

PEERLESS ASTERS. Said by experts to be the best shell-pink of its type. It is a cross between the pink Crego and late-branching shell-pink, but is more closely related to the latter class in form, color and season of flowering. They bear immense flowers, 4 and 5 inches across, of a beautiful rose or shell-pink color. Pkt., 60 seeds, 8c; $\frac{1}{8}$ oz., 40c.

GIANT CREGO ASTER. Pronounced by many the best Comet, or Ostrich Plume strain. The blossoms measure 4 to 5 inches, their graceful Chrysanthemum effect being heightened by the much twisted petals. Pkt., 100 seeds, 5c; $\frac{1}{4}$ oz., 40c.

Lavender, purple, white, rose, mixed.

SOLEIL D'OR, Golden Sun. The flowers are of good size, borne on long, strong stems; color pleasing light yellow. Pkt., 10c; $\frac{1}{8}$ oz., 60c.

HEART OF FRANCE. Claimed to be the best red aster ever introduced. Opens red and retains its remarkable beauty to the very end. Plants large and robust, branching type, long stems with few laterals. Flowers large and full, with never a trace of hollow center. Mid-season. Pkt., 15c, $\frac{1}{4}$ oz., 75c.

LATE BRANCHING IMPROVED. This magnificent aster, an improved strain of Semple's Branching, produces large double flowers borne on long, stiff stems and prized by florists for cut flowers. Excellent bedder. Use with Queen of the Market and Comet types and have a succession of beautiful asters from mid-summer to first frost. Pkt., 150 seeds, 8c; 3 for 20c; $\frac{1}{4}$ oz., 50c.

White, rose, crimson, pink, purple, lavender, mixed.

Collection No. 905—One packet each of above separate colors, 40c.

AMERICAN BEAUTY. Similar in type and growth to the Late Branching Asters, large, full flowers with incurve petals and stout stems from 15 to 24 inches in length and longer flowering than any other aster. Should be planted early to give it a longer season of growth and it will continue blooming until killed by the frost. Especially desirable for cut flowers and recommended for florists' use.

Rose, pkt., 10c; Lavender, pkt., 15c; Purple, pkt., 10c; September Pink, pkt., 15c; $\frac{1}{4}$ oz., \$1.00. White or Mixed, pkt., 10c.

Collection No. 903—One packet each, four colors American Beauty Aster, 40c.

BALL'S WHITE FLOWER is a sphere of pure white petals, borne on a long, stout stem, a mid-season variety. Pkt., 15c; $\frac{1}{8}$ oz., 50c.

**American Beauty**

ASTERS

QUEEN OF THE MARKET. If you want asters at the earliest possible date, this should be in your purchase. It comes from 2 to 4 weeks earlier than any other sort and is besides a handsome flower. Pkt., 100 seeds, 5c; 3 pkts., 12c; $\frac{1}{4}$ oz., 40c.

Crimson, blue, rose, lavender, mixed, pink, purple, white.

IMPERIAL DAYBREAK. Blossoms are very double and compact and have always been a favorite with florists, both because of their medium early-flowering period and for their own peculiar beauty. Pkt., 75 seeds, 8c; $\frac{1}{8}$ oz., 45c.

Purity Daybreak (pure white), Pink Daybreak, Lavender Daybreak, Salmon Pink Daybreak, mixed, all colors.

PEONY FLOWERED. One of the handsomest sorts, with very double, ball-like flowers, resembling a Peony or some of the new Chrysanthemums. Pkt., 100 seeds, 5c; $\frac{1}{8}$ oz., 30c.

Crimson, rose, white, blood red, dark blue, mixed.

GIANT COMET. A splendid new type of the Ostrich Plume Aster, with large Chrysanthemum-like flowers. Pkt., 50 seeds, 5c; $\frac{1}{4}$ oz., 50c.

Lavender, purple, white, rose, crimson, mixed.

White Perfection Aster

American Branching Aster

VICK'S CARDINAL. A dark red aster, splendid for bedding, making a brilliant show from early August till the close of the season. Used in a mass they are as handsome as a bed of geraniums. Pkt., 50 seeds, 5c; $\frac{1}{8}$ oz., 40c.

WHITE PERFECTION. In form it is like the Upright Branching, the plants being tall, with abundant flowers of exquisite shape and very double, the centers strongly whorled, and with long, strong stems, splendid for cutting. Pkt., 50 seeds, 8c; $\frac{1}{8}$ oz., 40c.

VICK'S LAVENDER GEM. The best Lavender Aster. Comet form and excelling all other Lavender Asters in its delicate shade. Pkt., 50 seeds, 5c; $\frac{1}{8}$ oz., 40c.

LADY ROOSEVELT ASTER. This is an exceedingly mammoth Aster and is a rampant grower, producing immense flowers, 5 to 6 inches in diameter. The long, broad petals are curled, giving an appearance of a graceful chrysanthemum. Color of a deep rose-pink. Pkt., 75 seeds, 5c; $\frac{1}{8}$ oz., 35c.

CRIMSON GIANT. Dark blood crimson, of remarkable perfection of form and appearance, the flowers frequently measuring 5 inches across. Pkt., 75 seeds, 8c; $\frac{1}{8}$ oz., 50c.

KING ASTERS, QUILL TYPE. A distinct class, the long, narrow petals having somewhat the appearance of being quilled. Pkt., finest mixed, 75 seeds, 5c; $\frac{1}{8}$ oz., 30c.

SENSATION ASTER. This is the best brilliant red Aster that can be had. Pkt., 8c; $\frac{1}{8}$ oz., 50c.

Reliable Vegetable Seeds

VEGETABLE NOVELTIES

BEANS

UNRIVALED WAX. The plants are strong and of good size and one of the heaviest bearers known. The beans are of a pale yellow color and there is not the tendency to stay green as in some other types of wax beans, but they color up all over almost at once. The pods are about six inches long, straight with a slight curve at the tip. It is also one of the earliest wax beans known and is noted for its resistance to rust and blight. Pkt., 10c; ¼ lb., 15c; lb., 50c; 5 lbs., \$2.00; 15 lbs., \$4.00; 60 lbs., \$14.00.

SWEET CORN

IMPROVED GOLDEN GIANT excels all other early varieties in size, productiveness and quality, and all of the late varieties in quality and early maturity. It is the one corn for the market gardener who wants the greatest amount of the highest quality corn in the shortest period of time from the smallest piece of land. It is because of the extreme tenderness, combined with the exquisite rich sugary flavor, that the Golden Giant has become the standard of perfection for sugar corn.

Pkt., 15c; ¼ lb., 20c; lb., 50c; 6 lbs., \$2.50.

PEAS

MELTING SUGAR. Height 4 to 5 feet. Well deserves its name. Should be cooked and eaten pods and all, the same as wax beans. Pods are stringless and when cooked are tender, sweet and sugary—a great improvement over the ordinary sugar peas. A few rows of this variety should be in every home garden. Pkt., 10c; ¼ lb., 25c; lb., 60c; 3 lbs., \$1.50; 10 lbs., \$3.00.

RADISH

EARL SCARLET GLOBE RADISH. The most popular Radish for either indoor or outdoor culture. In fact more Scarlet Globe Radishes are grown than all the other red sorts combined. It is the standard and if you grow it you can always find a ready market for it. We have an exceptionally fine stock of this seed and we believe that it has made a name for itself. The roots are fairly large, of excellent globe shape and it has a small top. The color is a bright scarlet and the flesh is very crisp and tender. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25; 10 lbs., \$10.00; 25 lbs., \$22.50.

CARROTS

CHANTENAY. Grown under contract for the most critical Market Gardeners' trade. Of rich, dark orange color. In earliness it ranks intermediate between Danvers and the Short Horn. Of the style of the Danvers, hardly as large, but fine and more symmetrical. It is being used quite extensively by market gardeners for bunching. Pkt., 5c; oz., 10c; ¼ lb., 40c; lb., \$1.25.

CABBAGE

DANISH BALLHEAD. This variety has been selected and perfected for more than fifty years by the Danish gardeners. They grow it almost exclusively for winter cabbage. Heads round, good sized, solid and very fine grained. Has but few outer leaves. A good keeper, tender and crisp, with little waste heart. Pkt., 5c; oz., 30c; ¼ lb., \$1.00; lb., \$3.50.

Lawn Grass Seeds

Among the essentials for a fine lawn are a rich, well drained soil, careful preparation of the ground, sowing the seed at the proper time, and a wise selection of seeds. For Spring Seeding sow as early as possible and rake over the surface after seeding. For Fall Seeding sow early enough to enable the young grass to become well established before cold weather. We especially recommend our Coat O' Green as being a mixture of the highest grade Kentucky Blue Grass, Red Top, White Clover and other grasses.

A Fine Lawn Adds to the Beauty of Any Home

"COAT O' GREEN" LAWN SEED

Coat O' Green Lawn Seed contains only the highest grade of grasses suitable for the purpose of making a beautiful, durable lawn. Our Coat O' Green Lawn Seed germinates quickly, roots deeply, this enables it to readily withstand the intense heat of summer and the hard cold of winter, showing beautiful, rich green from early spring to late fall. It contains no annual grasses for making a quick show, to the detriment of a permanent lawn, but has only those which are lasting and hardy. When a lawn is once established from our seed, it lasts for years. From six to eight weeks' time is all that is required to form a close thick turf of rich, velvety lawn when our seed is used.

QUANTITY TO USE: 1 pound for 300 square feet. 100 pounds will cover 1 acre.

Price: Lb., 60c; 5 lbs., \$2.50; 10 lbs., \$5.00. By express at purchaser's expense.

Shady Place Mixture. On nearly all lawns there are shaded, bare and unsightly spots on which the owners have difficulty in getting a stand of grass. For such places, this mixture is adapted. **Price:** Lb., 50c; 5 lbs., \$2.40.

Kentucky Blue Grass. Can be used alone or mixed with white clover for lawn. **Price:** lb., 50c; 10 lbs., \$4.50.

White Clover. Best for lawns. Sow at the rate of 5 lbs. per acre. **Price:** Lb., 90c; 10 lbs., \$8.50.

"Pride of Minnesota"—A new mixture for lawns. Lb., 40c; 3 lbs., \$1.00.

Write For Your Catalog HARDY NORTHERN GROWN NURSERY STOCK

We are headquarters for nursery stock of all kinds, as well as seeds and bulbs. All of our stock is extremely hardy and we make replacements of any stock that does not grow, providing we are notified before Sept. 1st after delivery. Other than this we do not in any way warrant or guarantee our seeds, bulbs and plants.

NURSERY CATALOG CONTAINS

1. Twenty-two illustrated planting plans.
2. Many illustrations in black and white.
3. Eight full pages shrubs and roses in colors.
4. Thirty-six chapters covering shrubs, vines, evergreens, roses, perennials, bulbs and fruits.
5. Indexed in common and Latin names.

Catalog will be sent upon receipt of 30 cents in stamps, which amount will be refunded on an order for nursery stock. The high cost of producing the catalog makes it necessary to limit it to those really interested.

GLADIOLI

100 BEST VARIETIES TO CHOOSE FROM

Every flower lover should have at least 100 Gladioli Bulbs in their garden. No flower known makes a more excellent one for cutting, not alone from the standpoint of a good keeper, but also from the fact that its numerous spikes make a most gorgeous spectacle. Plant from April 15th to July 1st, about three inches deep and about two to three inches apart. Bulbs offered are $1\frac{1}{4}$ inches in diameter.

SEE BACK COVER FOR ADDITIONAL GLADIOLI.

Emma V. White Co.

The Gladiolus which I sent for last year were the most beautiful ones in the world. I thank you very much for them.

Sincerely yours,

Mrs. H. Mackey,

FERNOLA

The Garden Wonder

Nature's Own Fertilizer

Pkg., 11c; 3 for 30c, postpaid

Large pkg., 75c, postpaid

We believe that Fernola is the best all around plant food and fertilizer that there is on the market. It is unexcelled as a stimulant for ferns and house plants, and is an excellent fertilizer for all sorts of outdoor shrubbery and plants. It restores failing plants and ferns to health, growth and color. It is generally conceded that Phosphoric Acid, Nitrogen, Potash, and Ammonia are the best fertilizing ingredients that there is and Fernola consists of the proper percentages of these substances.

DIRECTIONS FOR USE. For each plant stir thoroughly one-half teaspoonful in a cup of water. Apply to soil. Repeat this process monthly and the results will surprise you.

Emma V. White Co., Minneapolis, Minn.

Gentlemen: Fernola can not be beat as a fertilizer for plants. I have used it two months on a small fern, in which time it has grown more than 8 inches. Nothing that I have ever seen or used can equal it for quality.

Very truly yours,
(Signed) H. Grossman,

1295 Wellesley Ave., St. Paul, Minn.

St. Paul, Minn., March 3rd, 1924.

PYRETHRUM HYBRIDUM - DOUBLE GRANDIFLORA
EXCELLENT FOR CUT FLOWERS

This excellent flower is one of the most popular of all summer flowers. Coming into bloom as it does in the early part of the summer and being a perennial, it deserves a place in every garden. Our strain consists of several charming colors of rose, flesh, pink and white.

Because of the long stems, good lasting qualities and rich shades this flower is unexcelled for cutting and has won great favor with florists everywhere.
